## Endoscopic Minimally Invasive Repair of Zenker's Diverticulum

### Patient History

The patient is a 77 year old male who presented with progressive dysphagia and odynophagia. On esophagram, he was noted to have a large outpouching of his esophagus consistent with Zenker's diverticulum.

### Treatment Plan

The patient underwent an endoscopic minimally invasive Zenker's diverticulectomy via a trans-oral approach with no external incisions. He was discharged from the hospital on post-operative day one without any complications from the procedure.

### Results

Post-operatively he noted complete resolution of his dysphagia and odynophagia.

Before Zenker's diverticulectomy.

After Zenker's diverticulectomy.

## ABOUT FLORIDA E.N.T. & ALLERGY

The physicians of Florida E.N.T. & Allergy have served the Tampa Bay community for over 45 years. Our board certified physicians and doctors of audiology have completed extensive education and clinical training as well as specialized training in their area(s) of expertise. From pediatric allergies to fitting hearing aids, our caring and experienced providers specialize in ear, nose and throat care for the entire family using comprehensive, cutting edge technologies.
